

Commercial **Authorized Material**

Colorado Industrial Recycling recycles a wide spectrum of different materials. This document provides an overview of the materials we take, but it is by no means an exhaustive list. Scrap metal arrives in many different forms, both common and uncommon. If the item you are looking to recycle is not found on our list, please consult our Unauthorized Material overview as a cross reference. It is also always an option to consult with us about the specific material regarding which you have questions. You can call 719-390-9500 ex. 113 with any questions you may have.

Structural/Construction Materials

Metal Beams and Frames
Window Frames
Pipes
Metal/Chain Link Fences

Bathroom/Kitchen Fixtures
Empty Storage Tanks
(Must Verify it is Empty)

Concrete
(Call for Fees and Restrictions)
